US Considers A-Stockpiles

Would Complement Network In Europe of Missile Bases

WASHINGTON (AP) — Secretary of State Dulles said today the United States is studying possible formation of several stockpiles of atomic weapons in Europe. These would complement a network of intermediate range missile bases.

Dulles told a news conference he thought the IRBMs would not be available in operational amounts until the end of next year.

Demands May Cause Arms Talks Halt

Reject Compromise Plan for 14 New Members for Group

UNITED NATIONS, N.Y. (AP) — U.N. disarmament talks appeared today to be headed for a complete breakdown as the Soviet bloc formally demanded that Communist and neutral countries be given more representation in future negotiations.

The new move came after Soviet delegates had announced their rejection of a compromise plan to add 14 new members to the U.N. Disarmament Commission, bringing its total membership to 25.

An Albanian amendment, submitted this morning, proposed the addition of seven more countries. Western sources immediately declared the Albanian proposal unacceptable.

Despite Soviet threats to boycott future talks unless the Assembly accepted Russian terms for enlarging the commission, the Western nations pushed ahead for a vote.

One high Western source expressed the belief that it was useless to try further to prevent a Soviet boycott. This source said the Soviet Union apparently had decided to break off the talks no matter what the West agreed to.

The new countries proposed by the Soviet bloc were Austria, Bulgaria, Indonesia, Romania, Sudan, Finland and Ceylon.

Soviet Deputy Foreign Minister V. V. Kuznetsov told newsmen the enlarged group proposed by the West would be stacked at least 16-9 against Russia. He demanded that at least half the members of any such group be Communist or neutralist.

Prospects were uncertain for the Western plan, conceived to keep the Russians from carrying out their threat to boycott the disarmament talks.

The Soviets let it be known they planned to seek a prior vote on their earlier demand to balloon out the arms negotiations to include all 82 U.N. members. The West has regarded this as a Soviet bluff for bargaining purposes. Initial U.S. reaction to Kuznetsov's latest rejection was that it was a similar bluff.

Kuznetsov conceded that Russia would accept less than all 82 nations. But he said either the proposed 25-nation commission must be expanded to provide seven more Communists or neutralists, or some "Western bloc" countries must be subtracted to provide a balance.

The commission in the past has been made up of the 11 Security Council members and Canada, but the actual negotiations have been carried on by a five-nation subcommittee made up of the United States, Britain, France, Canada and the Soviet Union.

The Western proposal, in itself a diplomatic victory for the Russians, called for adding to the commission—for a one-year period beginning Jan. 1—Argentina, Australia, Belgium, Brazil, Burma, Czechoslovakia, Egypt, India, Italy, Mexico, Norway, Poland, Tunisia and Yugoslavia.

The 11 Security Council members after Jan. 1 are the United States, Britain, France, Nationalist China, the Soviet Union, Colombia, Iraq, Japan, Canada and Panama.

Fire Destroys Store

FRISBEE, Mo. (AP) — Fire whipped by a stiff wind today destroyed a supermarket in this southeast Missouri village of 100.

Vester Robinson, owner of the grocery, estimated the loss at \$25,000 to \$30,000. The fire was discovered shortly after midnight by two Missouri highway patrolmen.

Frisbee doesn't have a fire department and firemen from near-by Kennett arrived too late to save the one-story brick building.

Typhoon Bypasses Island of Iwo Jima

TOKYO (AP) — Typhoon Lola, carrying winds of 126 miles an hour, apparently bypassed Iwo Jima, U.S. Air Force weathermen said today.

The typhoon was 190 miles north-northwest of the island and was moving north-northeast at 40 miles an hour. Winds between 45 and 60 m.p.h. were reported on Iwo Jima.

Express Derails; Two Die

Train Leaves Hiway Overpass, Plunges 18 Feet to Street

BEDFORD, Mass. (AP) — The crack Boston & Maine express train Red Wing, was wrecked today in a derailment at a highway overpass in this suburb six miles north of Boston.

The engineer and fireman were killed and about a score of passengers injured.

It was raining at the time. Half of the two-section diesel locomotive plunged over the side of the bridge to the street 15 to 18 feet below.

Tracks and ties were torn up for a quarter of a mile from the bridge.

The nine-car train bound from Montreal to Boston was made up of pullmans, coaches, and milk, mail and baggage cars.

Only two of the cars remained on the roadbed, but they were astride it, their sides, smashed together.

The others were scattered along the embankment. Two of the cars punched through the wall of the Converse Rubber Co. warehouse at the side of the tracks, knocking out supports and dropping sections of the floors and roof of the four-story building.

Mail was strewn around.

William H. Kirley, director of the railway division of the State Public Utilities Department which investigated the wreck, said construction work was going on at the scene and a detour track was being used.

The engineer was pulled from the wreckage and was pronounced dead at the Lawrence Memorial Hospital. He was identified as Harold J. Danforth, 65, of Somerville.

The fireman, identified as George D. Murphy, about 30, of Manchester, N.H., was trapped in the wreckage of the locomotive.

A wrecker was used to raise the locomotive to remove Murphy's body.

Scarcely five minutes before the derailment, hundreds of pupils of St. Clement's elementary and high schools had walked under the railroad bridge on their way to school. The children report by 8:20 a.m. The train was wrecked about 8:25.

Two automobiles passing under the bridge were smashed by the plunging locomotive. The drivers were injured.

An eyewitness, the Rev. Jeremiah Doyle, said he saw the first car topple sideways "surprisingly slowly."

"At least the first three cars went over the bridge and the embankment almost simultaneously," he said.

In preparing the budget, the governor said many decisions will be required to determine what constitutes the pleas of special interests and what constitutes the public good. The goal, he said, will be to "put the general good first."

As Blair reiterated his plans to ask for relaxation of present school bond limits, the Missouri Public Expenditure Survey issued a statement endorsing his stand.

Speedup of Missiles Supply To European Allies Possible

HOUSE OF HORRORS—The remains of what appeared to be nine persons were found in this farmhouse occupied by Ed Geln, 51, at Plainfield, Wis., after a freshly butchered body

of a woman was discovered in an adjacent shed. Skulls and bones were found in the litter of crime magazines, old newspapers, junk and clothing in the house.

100th Anniversary Oct. 16, 1960

Council Schedules Sedalia Celebration

By D. Kelly Scruton

The City Council made it official, Sedalia's 100th Anniversary celebration, which is scheduled for Oct. 16, 1960, through a resolution adopted unanimously by the Council Monday night. The resolution called for the naming of a Centennial Committee with Donald S. Lamm as the chairman.

The resolution stated "it is necessary for the success of such celebration that a representative committee of local citizens be appointed to plan and coordinate the activities of the centennial celebration."

The committee established through the resolution includes the following members other than Chairman Lamm: Abe Silverman, Mrs. Everett White, George H. Scruton, Mrs. Herbert Seifert, B. B. Ihrig, C. G. Gooch, A. W. Haller, Judge Dimmitt Hoffman, Mrs. E. F. Yancey, Julian H. Bagby, Norbert Brosch, Dr. Heber U. Hunt, Rev. Ralph E. Hurd, K. U. Love, Rev. A. J. Brunswick, Del Heckart, John R. Van Dyne, Judge Frank Monroe, and William Matthews.

In accordance with the resolution the Mayor is authorized, empowered and directed to fill any vacancies on said committee that may exist or at the request of said committee to appoint additional persons to aid and assist in the activities of said committee.

A report from the Traffic Committee presented the Council by Cline Cain, chairman, was read by City Clerk W. C. Ream. The report was approved unanimously by the Council and placed on file.

It reviewed the activities of the Committee, its recommendations on through streets and truck routes, made recommendations on street stop signs and yield signs.

An ordinance providing for the authorization of Mayor Julian H. Bagby and City Clerk W. C. Ream to enter into contract with the State Highway Department, for the improvement of Broadway from

the county jail to New York, was given final passage.

The Council also passed several new ordinances pertaining to police control, replacing a number of old laws of the city. They make the offense as being misdemeanors, placing the punishment of fines or jail sentences or both. They are: being intoxicated in public; wilfully resisting arrest; firing

Dystrophy Drive Gains Extra Help

In accepting the post as chairman of Pettis County Muscular Dystrophy Chapter, Dr. D. C. Proctor urges residents and community groups to give generously to the MDAA appeal.

Among our blessings this Thanksgiving, he declared, we can count the great advances in the field of health that medicine has made with other lethal diseases in the past few years. Perhaps in this campaign to support research in muscular dystrophy will be the crucial drive that results in a cure for this destroyer, too.

A national non-profit association, MDAA supports nearly 100 scientific projects in more than 50 great medical centers. It is currently sponsoring construction of the institute of muscle disease, a complex of 80 laboratory units where muscular dystrophy and allied disorder will be intensively studied.

The association also maintains a network of 43 muscular dystrophy clinics which afford a wide variety of patient services through its chapters and provides summer camping for dystrophic children.

A group of leaders in a community charity were giving a 12-year-old boy with muscular dystrophy a new wheel chair replacing the old one he had outgrown. But after the shiny new gift had been presented and admired and its features explained to the boy a social worker asked: "What are you going to do with the old wheel chair, Peter, now that you have this nice new one?"

The youngster did not hesitate on his candid reply. "I'd like to throw them both in the ash can."

There was a moment of shocked silence—but what could be a better answer—to throw both

Guard Will Fly Girl To St. Louis Hospital

HOT SPRINGS, Ark. (AP) — A 14-year-old girl, suffering from a rare ailment which causes her to hemorrhage from the calves of her legs, will be flown to St. Louis in an Arkansas National Guard plane for treatment.

Arkansas Adj. Gen. William C. Page said at Little Rock that removal of Arlene Loxton of Malden, Ark., would be made this afternoon.

The girl is being treated with a serum, of which only limited supplies are available in Arkansas.

Page said the plane, in charge of Capt. Cy Pedigo, would leave here, about 1 p.m.

Page said he did not know at what St. Louis hospital the girl would be treated.

Change of Pace

Sedilians were delighted today to see the sunshine after several days of dreary rain and even some snow.

Generally fair tonight and Wednesday; a little cooler tonight; slightly warmer Wednesday; low tonight in mid-20s; high Wednesday in mid-40s.

The temperature at 7 a.m. was 27, 40 at 1 p.m., and 41 at 2 p.m. Low Monday night 27.

The temperature one year ago today, high 47, low 30, with .01 inch of rain; two years ago, high 62, low 39; and three years ago, high 51, low 40, with .12 inch of rain.

McElroy Has This to Say After Confab

He Meets With Ike In Georgia; Keeps Delivery Date Secret

AUGUSTA, Ga. (AP) — Secretary of Defense McElroy said after a conference with President Eisenhower today the United States will be able to supply intermediate range missiles to its European allies "earlier than had been expected."

McElroy said at a news conference that for security reasons he could not pinpoint just when the Defense Department believes such shipments of 1,500-mile missiles can start. He indicated, however, that the time is not immediately imminent.

He did so in saying, in replying to a question, that such shipments will start "considerably earlier than several years" from now.

After the Eisenhower-McElroy conference at the Augusta National Golf Club, the White House announced that the President will make the third in a series of major addresses on national security in Cleveland the night of Nov. 26.

That speech, to be carried nationwide on television and radio, will deal with "the value of international cooperation in our nation's security."

The Eisenhower talk in Cleveland will be sponsored by the Chamber of Commerce and other civic organizations, White House press secretary James C. Hagerty said.

McElroy and the Pentagon's fiscal expert, Wilford J. McNeil, flew to the President's vacation primarily to discuss the defense budget starting the fiscal year starting July 1.

The big question confronting them is how much defense spending must be boosted to beat the challenge of Russia's space weapons.

In reply to questions, McElroy said no final decision was reached.

A short time earlier today, Secretary of State Dulles told a Washington news conference he thought the IRBMs would not be available in operational amounts until the end of next year.

French to Cast First Confidence Vote on Premier

PARIS (AP) — The French National Assembly met today to decide the fate of young Premier Felix Gaillard's economic program while thousands of civil servants staged a 24-hour warning strike for more pay.

The vote of confidence on Gaillard's program was not expected until late tonight.

The assemblymen drove to their session through streets dotted with unempted garage cans. Police reinforcements were also evident in various parts of the capital.

Gaillard is asking the National Assembly for special powers to issue financial and economic decrees without further approval by Parliamentary Observers felt the 38-year-old Premier would get the vote of confidence—his first since being confirmed—but with a small margin.

Gaillard plans about 210 million dollars in new taxes and about an equal amount slashed from government spending.

Schools were closed by the strike and the two big Paris airports, Le Bourget and Orly, were shut down. But gas and electricity were distributed normally through out the country. Telephone service also appeared normal to the main provincial cities.

Change of Venue

TUSCUMBIA, Mo. (AP) — The accused slayer of a riding ranch competitor and his 16-year-old helper obtained changes of venue today for the trials on first degree murder charges.

Victor L. (Tex) Varner, 49, is accused of fatally shooting Edwin Boysen, 46, and Larry Irwin, 15, of Iberia, an employee of Boysen. They were shot last July 5 in the Kaiser State Park area near Osage Beach while inspecting a fence separating the Varner and Boysen ranches.

Late Bulletin

Hush-Hush on Satellites

House Investigators Search For Possible Muzzle Order

WASHINGTON (AP)—House investigators put together today some questions about whether President Eisenhower muzzled the military in public discussion of satellite programs.

A subcommittee looking into government information practices recalled Murray Snyder, assistant secretary of defense for public information, to ask about that and other matters.

What evoked this line of inquiry was a communication Oct. 9, five days after Russia fired its first Sputnik into space, from one underofficial of the Air Force to another. It said: "President desires that Air Force personnel refrain from making public comment on the satellite program of the U. S. and other countries."

A copy of the memo, made available to newsmen by the subcommittee staff, showed that it was sent by Harold M. Helfman, deputy director of the Office of Information Services at headquarters of the Air Research and Development Command in Baltimore. It went to the commander of the Air Force ballistic missile development center at Inglewood, Calif.

What the subcommittee wants to know is whether Helfman or somebody else was responsible for orders going out saying that the President wanted Air Force people not to talk about satellites. The subcommittee has had word from the Air Force that, along with a message by wire restricting public comment, verbal instructions were issued last Oct. 9.

Bans Giving Apples To School Teacher

ROCHESTER, N.Y. (AP)—Competition in gift giving has caused school officials in a Rochester suburb to rule that there are to be no more apples for teacher.

The principals of the 13 schools in the West Irondequoit School District said in a letter to parents, "In the last few years, the monetary value of gifts to teachers by pupils has increased to a point where a problem has been created adding to the confusion and speculation on the satellite matter."

Each of the three military services had taken similar steps but Snyder, in response to a letter from Committee Chairman Moss (D-Calif.), said Nov. 4, "No verbal or written instructions to issue the communications, to which you refer, were given by the secretary of defense or by myself in his behalf."

Snyder appeared briefly as a witness yesterday after a former Pentagon official testified that official regulations have been "hampering the progress of the ballistic missile program."

That comment came from Trevor Gardner, former chief of research and development for the Air Force. He quit in February 1956 in what he called a serious disagreement with the way the missiles program was organized.

Snyder testified he felt he has been making good on his promise to try and get out the news at the Pentagon. He said that one trailblazing operation was the naming of a special director of declassification policy.

Under questioning, Snyder repeated that the Pentagon still intends to permit newsmen to cover the first launching of an American space satellite, set for about next March. He said they will not be allowed at the launching of test globes, a series of which are to be sent aloft starting next month.

HOMES FOR A MOBILE NATION—More than three million Americans are living in mobile homes the year around or using them for weekend holidays and vacations. Newschart above illustrates the make-up of this population on wheels. The use of mobile homes has shown a phenomenal growth: in 1930 sales amounted to less than two million dollars; in 1956, 140,000 units were sold for nearly 600 million dollars. Modern trailer homes range in size from 24 to more than 50 feet, have as many as three bedrooms and cost from \$3,000 to \$20,000.

Men Trapped in Sewer

MERCED, Calif. (AP)—"I'm cold," Leroy White, 35, said. His companion, Roy Knapp, 30, agreed. They were totally covered in a 21-inch sewer pipe.

The two men entered the newly installed mile-long pipe to inspect and repair it. They got stuck in a deposit of mud. After rescuers dug them out, White shook his head.

"No more 21-inch pipes for me," he commented.

Photographer Sues Actor for Damages

SANTA MONICA, Calif. (AP)—A newspaper photographer has sued actor Jack Palance for \$15,116 battery damages.

George O'Day, 45, asked \$7,500 actual and \$7,500 punitive damages, in addition to \$116 medical expenses.

The incident took place outside a courtroom where Palance had

appeared in connection with a separate maintenance suit brought by his wife, Mrs. Virginia Baker Palance.

O'Day, 45, asked \$7,500 actual and \$7,500 punitive damages, in addition to \$116 medical expenses.

George O'Day, of the Los Angeles Herald-Express, charged in the suit filed yesterday that Palance attacked him without provocation when O'Day attempted to take the actor's picture last Sept. 6.

The incident took place outside a courtroom where Palance had

Cradle Shower For Mrs. Glenn

On Sunday afternoon, Nov. 17, Mrs. Jack Allgaier, Mrs. Irene Mairony and Mrs. Fred Kuhlman gave a baby shower for Mrs. Jimmy Glenn at the home of Mrs. Kuhlman, 222 East Fourth Street.

Pastel shades of mums and pink carnations were used in decorating. A large stork centered the dining room table around which were attractively wrapped gifts for Mrs. Glenn.

Guests for the afternoon were: Mrs. Lillie Creagan, Mrs. James Denny, Mrs. William Dick, Mrs. Florence Gehken, Mrs. Harold C. Gunn, Mrs. S. M. Hein, Mrs. Dell Hlamberger, Mrs. Virginia Truman, Mrs. Glen Short, Mrs. Donald Weller, Mrs. Joseph Wiesing, Mrs. John O'Brien, Mrs. Paul Wiemhold and Mrs. Margaret Golder.

Mrs. Carter Is Elected to Head Past Presidents

The Past Presidents Club of the Sedalia Garden Clubs met Friday afternoon, Nov. 15, at the home of Mrs. Herbert Seifert, 1700 West 11th, for a dessert luncheon followed by a business session. Mrs. Thomas W. Croxton of Jefferson City and Mrs. Cal Eichholz of Columbia, both former Sedalians and still members of the club were in attendance.

New members were the retiring presidents of each of the nine garden clubs and they were welcomed in a ceremony by Mrs. J. W. Maunder, program chairman. The incoming group is comprised of Mrs. G. G. Hopkins, Mrs. Harold Dean, Mrs. B. Y. Edelen, Mrs. Fred Brink, Mrs. R. V. Miller, Mrs. Paul Berthoux, Mrs. E. J. Thomas, Mrs. James M. Ryan and Mrs. R. A. Enochs.

A report of the nominating committee was accepted as given by Mrs. C. L. Carter, life president, which elected for 1958 and 1959 Mrs. B. E. Heacock as president; Mrs. C. Martin, first vice-president; Mrs. Ray Lippard, second vice-president; Mrs. Oscar DeWolf, secretary and Mrs. W. G. Borne, treasurer. Mrs. H. C. Johnson, junior past-president, acted as installing officer while the new corps of officers were placed in order for this ceremony by Mrs. Linden Lee Jones, who also presented them with their badge of office, a corsage created for the occasion by Mrs. Carter. Mrs. J. E. Mitchell acted as proxy for Mrs. Borne in the installation ceremony as Mrs. Borne could not be present. The appropriately decorated gavel was presented to Mrs. Heacock by the retiring president, Mrs. A. A. Ferguson.

Mrs. Heacock announced some committees: program, Mrs. Martin, Mrs. Leo Eickhoff and Mrs. James Ryan; social, Mrs. Lippard, Mrs. Dean, and Mrs. Enochs; special activities, Mrs. Seifert, Mrs. J. W. Atkinson and Mrs. Ida Harriman; beautification, Mrs. Johnson, Mrs. Kenneth Weinrich and Mrs. R. B. Rupard.

After a discussion of the condition of various plantings in the city for which the group was responsible it was decided to limit future plantings to native shrubs and trees. The new year books were distributed by Mrs. Martin.

On account of the large membership it was decided that in the future the club would meet in a public place rather than in a members home and the next meeting will be in February at the Bothwell Hotel.

Triple F Club Meets With Mrs. G. Spickert

Mrs. George Spickert was hostess to the members of the Triple F Club, at her home northwest of Green Ridge on Wednesday afternoon.

The president, Mrs. A. N. Baker, appointed the following committee to plan the Christmas party of the club, Mrs. Etta Murphy, Mrs. H. H. Ream and Mrs. C. M. Purchase.

Refreshments were served to nine members present.

Mrs. Boger to Speak To Jr. Garden Club

The Junior Garden Club will meet at 3:30 p.m. Wednesday at the Library at which time Mrs. J. W. Boger will be the speaker, taking for her subject, "Litter-bugs".

Susan Siragusa is president of the Junior Garden Club which meets the third Wednesday of each month.

Phi, meets at 8 p.m. at the home of Joann Moore, 1810 South Ohio.

Christian Womens Fellowship, of East Broadway Christian Church, meets at 7:30 p.m. with Mrs. John Dirck, 314 East Saline.

Striped College PTA Study Class meets at 2 p.m. with Mrs. Richard Kasak.

Mark Twain PTA executive committee meets at 1 p.m. with Mrs. John Van Dyne, North Grand Ave.

MKT Ladies Safety Council will meet at 2 p.m. Executive meeting at 7:30 p.m. Bring basket and table service.

FRIDAY

Mark Twain PTA meets at 2:30 p.m. Attendants for nursery and reading room provided.

Jefferson School PTA meets at 7:30 p.m. Executive meeting at 7:15 p.m.

A turkey dinner was given Friday evening at the Labor Temple, sponsored by the Loyal Star Lodge, in honor of Ruben Barrick, who recently retired from the Missouri Pacific shops, and Mrs. Barrick.

A gift was presented to them by the lodge.

The regular meeting followed the dinner.

The next meeting will be in celebration of Christmas, Dec. 11.

A baked chicken supper at 6 p.m. Thursday at the church. This is an annual affair.

**LaMonte WSCS Is
Sponsoring Bazaar**

The Women's Society of Christian Service of LaMonte Methodist Church, is sponsoring a bazaar and

Pink-Blue Shower Honors Mrs. Ellis

Mrs. Keith Ellis and Mrs. Jerry Johnson, both of Kansas City, entertained at a pink and blue shower honoring Mrs. Lyle Vance Ellis of Columbia at the home of Mrs. John Bruns in Green Ridge.

The dining room was decorated for the occasion in pink and blue. The centerpiece was a stork. Games in keeping with the party were enjoyed.

Guests present were: Mrs. Sarah Crawford, Mrs. Kenneth Botts, Mrs. Floyd Egbert, Mrs. Dorothy Reid, Mrs. Walter Chaffer, Mrs. Earl Bolton, Miss Marjorie Bolton, Mrs. Clifford Sims, Joan and Susan Sims, Mrs. Venus Ellis, Mrs. Marjorie Rice, Melvin, Janelle and Vera Rice, Mrs. Henry Bruns, Mrs. Maxine Chryst, and Mrs. Sylvia Hord.

A number of invited guests were unable to attend but sent gifts.

Auxiliary Officers Attend Conference

Mrs. W. C. Cain, president of the American Legion Auxiliary to Pettis County Post 16, attended the Auxiliary Department of Missouri Conference of Presidents and Secretaries held in Jefferson City Saturday and Sunday, Nov. 16 and 17.

Mrs. James Franks, past-president of the local organization and the secretary, Mrs. Linden Lee Jones were also in attendance.

Mrs. Oliver H. Kortjohn of St. Louis, Auxiliary Department President; Mrs. George H. Bade of Berger, first vice-president; Mrs. Paul D. Souder of Chamois, National Committeewoman; other state officers and Department Chairmen of Committees were present to give their instructions to the officers of the units in the working program of the Auxiliary for the coming year.

His Excellency Gov. James T. Blair gave the keynote address on mental health at the opening session of the Conference, stressing the need for increased facilities for the adequate care of psychiatric patients, mentally retarded children and indigent aged.

The principle address at the banquet held Saturday night was by the National President of the ALA, Mrs. J. Pat Kelly of Georgia. All sessions and meals were held at The Governor, headquarters hotel.

The regular meeting followed the dinner.

The next meeting will be in celebration of Christmas, Dec. 11.

The annual Christmas tea and book review will be held Thurs-

day, Nov. 12. Two members from each of the four circles will be appointed as hostesses for the tea.

A family night supper will be held Wednesday evening, Nov. 27, with the Ruth and Miriam circles as hostesses. Dr. R. C. Williamson of Sedalia will address the group following the supper.

The leaders of the four circles for 1958 are as follows: Mrs. Harvey Wadleigh, Mrs. Gertrude Helman, Mrs. Ezra Inselman and Mrs. Carl Johnson.

STRAIGHT BOURBON

The one that's really new
is the lowest-priced, too!

Compare! Car for car,

Edsel gives you most—and is priced the lowest—
of all 1958's medium-priced cars!

The elegantly styled Edsel is the newest looking car you'll see on the road this year. But more important to you as a car buyer, the Edsel is *new all over*.

New all over means the already-famous power of the big, new V-8 Edsel Engines. It means the option of new Teletouch Drive, the most talked-about feature in years. It means the safety of self-adjusting brakes. Even the luxurious comfort

of the first genuine contour seats.

Yet, with all these important advances, Edsel prices are the lowest in the whole medium-price field!*

Compare—car for car. You'll find that the 1958 Edsel is the value of the year. See your Edsel Dealer today and prove it.

OBITUARIES

Mrs. Myrtle Cooper

Mrs. Myrtle Pace Cooper, 75, former resident of Sedalia, died Sunday at 1027 Spruce, Kansas City, where she resided with a sister, Mrs. Stella Bennett, who survives her, as do two brothers, Glen Pace, Sedalia, and Robert Pace, Huntington Park, Calif.

Mrs. Cooper had been a resident of Kansas City the past 33 years. She was born Oct. 31, 1882, daughter of the late Mr. and Mrs. Thaddeus Pace.

The body arrived Tuesday afternoon and was taken to the McLaughlin Funeral Chapel where funeral services will be at 2 p.m. Wednesday.

Burial will be in Crown Hill Cemetery.

William E. Gard

William E. Gard, 58, died at his home, 624 East 15th, at 7 p.m. Monday a short time after stricken with a heart attack.

Mr. Gard was born at Sedalia, Sept. 4, 1899, son of the late Lenoard and Rebecca Beeler Gard. He lived all of his life in Sedalia, receiving his education in the Sedalia schools. For the past 36 years he had been employed at the railroad shops in Sedalia, working for a number of years at the MKT and of recent years as a sheetmetal worker at the Missouri Pacific shops.

He was married in Sedalia, Aug. 27, 1923, to Miss Ethel Kreisel. Mr. Gard was a member of Granite Lodge, No. 272, A.F. and A.M., and Pettis Chapter, O.E.S. Both his parents lost their lives

May 17, 1952, when their home in Sedalia was destroyed by fire.

A sister, Mrs. Aleene Shepherd, died Oct. 14, 1952, of injuries sustained in an auto crash near Holden.

Two brothers and another sister died in infancy.

Mr. Gard is survived by his wife, Mrs. Ethel Gard; and two nieces, Mrs. Edna Strange, St. Louis, and Mrs. Marcella Phillips, Sedalia.

Funeral services will be held at the Ewing Funeral Home at 2 p.m. Thursday. Burial will be in Memorial Park Cemetery.

The body is at the Ewing Funeral Home.

Robert R. Dillon Services

Funeral services were held at 9 a.m. Thursday at St. Ann's Catholic Church, Kansas City, for Robert R. Dillon, 67, who died at his home, Intercity district, Kansas City. Burial was in Mt. Olive Cemetery.

Mr. Dillon was a son of the late Robert L. and Mary J. Dillon, who resided at 1719 South Carr in Sedalia.

He was preceded in death by a sister, Miss Laura M. Dillon and a brother, Edgar Dillon.

He was born in New Franklin, Mo., and lived in greater Kansas City most of his life. He was a motion picture operator at the Missouri theater. He also was a veteran of World War I. Mr. Dillon was a member of St. Ann's Catholic Church. He leaves his wife, Mrs. Verdis Dillon of the home; four sisters, Miss Louise Dillon, Pasadena, Calif.; Mrs. John Heintz, St. Louis; Mrs. Margaret Gross, Cold Camp, and Mrs. Ivan Settles, Buena Park, Calif.; two brothers, John B. Dillon, Sedalia, and W. R. Dillon, Kansas City.

Funeral services will be held at 10 a.m. Wednesday, Nov. 20, at the Kidwell Funeral Home, Versailles, with the Rev. Jennings officiating.

Burial will be in the Versailles Cemetery.

Diedrich Meyerdierts

Funeral services were held at the Lutheran Church, Block, Kan., for Diedrich (Dick) Meyerdierts, uncle of Mrs. John Bluhm, Sr., who died in Kansas City. His death was Monday, Nov. 11.

Frank J. Spauls Services

Funeral services for Frank J. Spauls, who died at his home, 318 West Tenth, Monday morning will be at 10 a.m. Wednesday at the McLaughlin Funeral Chapel. The Rev. Elmer L. Hobbs, pastor of the First Methodist Church, will officiate.

Mrs. Charles Maggard will sing "The Old Rugged Cross" and "In The Garden". Mrs. C. D. Demand will be at the organ.

Pallbearers will be Judge E. L. Birdsong, Bryan Shoemaker, Walter Estes, James Lacey, Leo J. Harned and Joe Monsees.

Burial will be in the Spauls family lot in Smithton Cemetery.

Gary, Indiana, has conducted tours for sightseers of its steel mills and oil refineries.

Colonel Lewis Gives Program For Rotarians

Col. William C. Lewis, director of operations for the 340th Bombardment Wing at Whiteman Air Force Base, presented a program "A Decade of Security — USAF Through Global Air Power" at the Monday noon luncheon meeting of the Sedalia Rotary Club at the Bothwell Hotel.

Assisting Col. Lewis in the presentation of the program were Maj. Earl E. Sparks, chief of intelligence for WAFB, and Maj. M. E. Johnson, target intelligence for Whiteman AFB.

James Denny, program chairman, presented Col. Richard Kline, WAFB base commander, who was a guest of the club, and presented the speaker.

Other guests of the club presented by John Zulauf were Phil Brown, guest of Lou Tempel, Milt Overstreet, guest of Dr. Lawrence Geiger and Roy Schlemmer, guest of James Denny.

Dick Snow, social chairman, announced the annual Rotary Club Christmas party will be held on Monday evening, Dec. 9, at the Missouri Homestead.

Dr. C. G. Stauffacher, president, presided over the meeting. Rev. Bob Lehew offered the invocation and Ralph Carrel was song leader.

Sedalia CAP Unit Helps In Plane Hunt

The Sedalia Squadron of the Civil Air Patrol is participating in the search for a missing light plane in the northeast section of Missouri. The plane with four persons aboard has been reported missing since Sunday night about 6:30 o'clock when last heard from at Kirksville.

The local CAP plane piloted by Dale Elwood, senior member of the local squadron, and Capt. Ray Anderson, as observer, took off from the Sedalia Municipal Airport at 12:45 p.m. Tuesday for Kirksville. They will join other CAP units in the search.

Marvin Howard and his pilot, Kenneth Reeves, took off at 10:45 a.m. today for Kirksville, to participate in the wide search. Reeves is a member of Kansas City CAP Squadron No. 2.

At 6:58 p.m. Sunday the pilot of the missing Piper Tri-Pacer plane, Charles Chiaramonte, of Melrose Park, Ill., radioed requesting altimeter setting. The message was picked up at Kirksville.

The plane took off from the Fairfax, Kan., airport and was enroute to Oshara, Ill., according to information received here.

In the plane with Chiaramonte were Mr. and Mrs. Frank Chiaramonte and Miss Carol Schierhorn, all of Forest Park, Ill. The pilot was a nephew of Frank. They had visited relatives in Liberty, Mo., over Sunday.

At 6:58 p.m. Sunday the pilot of the missing Piper Tri-Pacer plane, Charles Chiaramonte, of Melrose Park, Ill., radioed requesting altimeter setting. The message was picked up at Kirksville.

The plane took off from the Fairfax, Kan., airport and was enroute to Oshara, Ill., according to information received here.

Man Is Held For Hobby; Human Heads

WAUTOMA, Wis. (AP)—A diffident little man who admitted in puz-
zled tones yesterday that he had
opened fresh graves over a period
of years to collect human heads
and finally butchered a neighbor
woman—"while in a daze-like"—
faces a polygraph test of his story.

Edward Gein, a 51-year-old
Plainfield bachelor handyman, is
scheduled to go to Madison today
for a lie detector test at the state
crime laboratory.

He is being held under \$10,000
bond for the armed robbery of
Mrs. Bernice Worden last Saturday.

Dist. Atty. Earl Kileen said the
filing of a murder charge in the
death of the 58-year-old widow,
whose dismembered corpse was
found hanging like a deer carcass
in Gein's woodshed Saturday
night, awaits only a complete sift-
ing of the gruesome remnants
found on his secluded farm, about
120 miles northwest of Milwaukee.

Here are some of the questions
the lie detector test may answer:
Did Gein mount hideous death
masks from the faces of new-born
dead?

Did he fabricate upholstery for
furniture in his cluttered farm
house from human skin?

Did he intend to eat the one vic-
tim he admits killing, the one of
whom he said, almost apologeti-
cally, "I am not too sure that I
killed her"?

"That is what I can't remem-
ber," Gein said in a question-and-
answer session with Waukesha
County officers.

A "daze," he said, came on him
when he did such things as dig up
the graves from which he took
at least 10 heads.

Once, he said, the daze left him
while he was digging in a burial
mound.

"I quit then," he said.

Investigators, who found Mrs.
Worden's decapitated corpse, dis-
covered the heads of four other
persons in Gein's house Sunday
and found six more there yester-
day. Some were packed neatly
in plastic bags, others were tossed
under furniture.

In a signed statement, Gein said
he had not "collected any for two
or three years."

Kileen said Gein took him to
cemeteries he had visited.

At Madison last night, Charles
Wilson, state crime laboratory di-
rector, said that when all the hu-
man segments had been collected
from Gein's farm, technicians
would study them in an effort to
identify the victims of the grave
robberies.

\$5,000 Is Top Amount For Soil Bank Rental

The \$5,000 limitation under the
Soil Bank's Conservation Reserve
program applies to the total
amount which any one person
may receive in annual rental pay-
ments during one year for taking
part in the program.

According to Carl E. Johnson,
manager of the Pettis County ASC
office, a farmer may earn up to
\$5,000 in annual rental payments
in any one year, and this is the
total he can be paid whether he
has one farm or several.

Under the 1958 acreage Reserve,
however, a farmer may earn up to
\$3,000 in Acreage Reserve pay-
ments on each farm in which he
has an interest as a "producer." This
\$3,000 covers the total of all
Acreage Reserve payments on all
crops eligible under the 1958 pro-
gram.

If a farmer has more than one
farm, he could earn up to \$3,000
in Acreage Reserve payments on
each of his farms.

In other words, the Conservation
Reserve limitation of \$5,000 applies
to the total annual rental pay-
ments to any one person, no matter
how many farms he may have. The
Acreage Reserve limitation of
\$3,000 applies to each producer on
each farm on which he has an
interest.

Cheering Visitor

FORT CAMPBELL, Ky. (AP)—
"Stockade Annie" is a familiar
figure around this Army post.

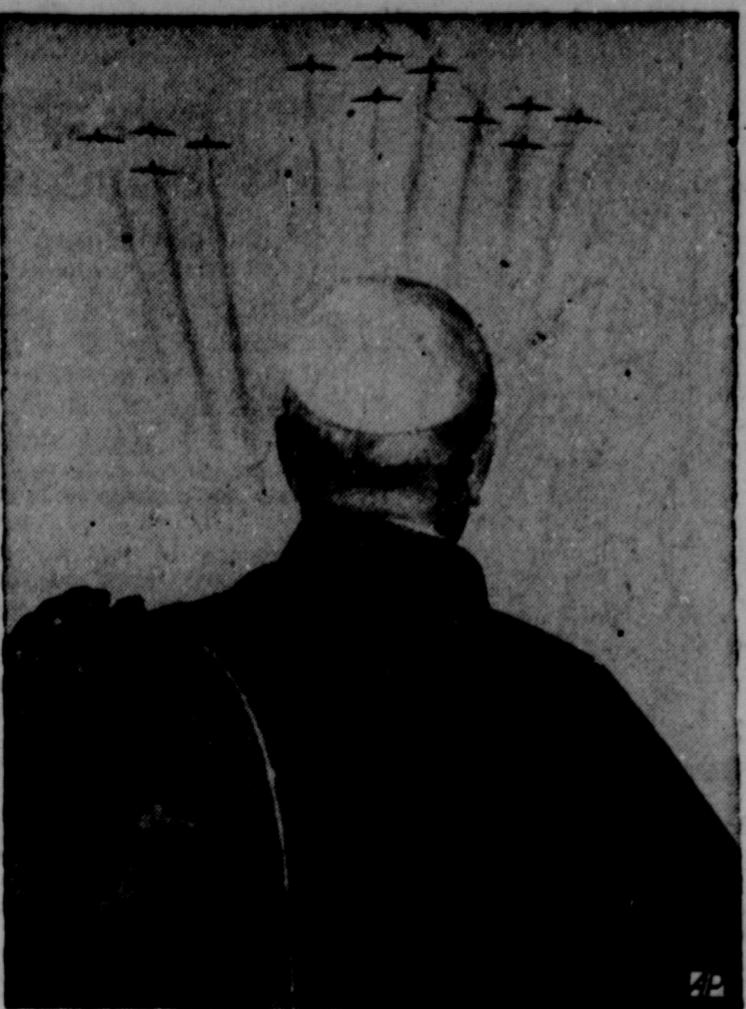

But you won't find this 80-year-
old woman around the service
clubs. She visits the stockade and
the hospital.

Each Sunday, Mrs. Anna Mabry,
a visitor at the post for 15 years,
shows up with presents for the
sick and a word of cheer for a
GI who may have gone wrong.

The bus company long ago gave
her a pass from her Hopkinsville
home to the post, where she is al-
lowed to wander unaccompanied.

Recently, several soldiers chip-
ped in to buy her a gold lapel
watch.

Alexander the Great, Julius
Caesar, and the Duke of Wellington
never were defeated in battle.

PAPAL FLYOVER — Pope Pius XII watches Italian air force jets soar high above his residence at Castel Gandolfo. Pilots put on a special flight for him after papal audience.

Modern Ways Help Reduce Farm Chores

By RALPH RICKETTS
MU Extension Agricultural Engineer

Some time ago, on a farm in
Northwest Missouri, a farmer was
feeding silage from an upright
silo. He climbed to the top of the
silo, threw the silage down onto
a platform, then climbed down and
pitched the feed into a wagon.

Next he unloaded it into the silage
trough. Three times he handled
this silage by hand. On top of this
the lot was muddy and there were
several gates to open. Needless to
say the man wasn't in too good
humor. He was spending a great
part of his working day just doing
chores.

In this day and time we can't
afford such inefficiency. Most of
us don't mind working but we
want to have something to show
for our time. There are easier
ways of feeding silage that I've
seen over the state. For example,

one farmer has a "Lazy Susan"
type feeder. This consists of a re-
volving feedbunk. In addition he
had a silage unloader run by elec-
tricity which picked up the silage
in the silo and brought it down
into the revolving bunks. This way
no actual handling of the silage
is necessary.

J. W. Davis of Booneville feeds
the easy way, too. He has a silage
unloader in his upright and this
throws silage down into a self-
unloading wagon. The wagon
places the silage directly into his
fence line bunks.

These methods of silage feeding
are expensive, machinery-wise;
too expensive for the feeder with
a small operation. However,
there's a farmer in Lafayette
County, Pete Nienhuser, who has
a handy feeding arrangement for
his upright silo, and at cost any
of us could afford. He has a cart
which rolls along on top of his
feed bunks. This cart is placed
under a chute, the silage thrown
down into the cart and the cart
rolled down the bunk-line spreading
the silage.

Good trench silos are becoming
popular in Missouri because, with
them, silage is more easily stored
and more easily fed. Mr. Sweezy
of Jasper County was perhaps one
of the first in the state to self-
feed silage from such a silo. He
built one entirely above ground.
The walls were of cobblestone and
the floor concrete.

He successfully fed 40 head of
dairy cattle in this 20 foot-wide
trench. Sweezy says it took him
about an hour each week to move
the feeder rack and do other
chores necessary for feeding.

Over near Brookfield, I saw a
14-year-old boy feed 200 cattle in
less than an hour from a tractor
seat. He scooped the silage from
a trench silo with a tractor manure
scoop, carried it to near-by bunks
and dumped it.

Chet Stice of Lewis County loads
silage from an above-ground trench
silo, 60 feet wide, into a self-unload-
ing wagon. He uses a manure
scoop on his tractor, too. He
spreads grain on top of the wagons
and the grain mixes with the silage
when the wagons are unloaded into
the fence-line bunks.

These are just a few ways to
save work in feeding silage. Per-
haps none of these fit your feeding
set-up, but there is a best way for
you to feed silage with the least
work. You owe it to yourself to
give the matter serious thought
toward making your operation
more efficient.

MU, USDA Cooperate On Research

By Robert Yeck

MU, USDA Research Associate

Since the spring of 1948 Mis-
souri Agricultural Experiment Sta-
tion scientists have been cooperat-
ing with scientists of the U.S.D.A.
in research work within the Cli-
matic Laboratory at Columbia. Work-
ers attempt to find the an-
swers to such questions as what
environmental conditions are best
for dairy cattle and what happens
to production in cold weather as
well as in hot weather. While an-
swering these questions, they seek
answers to others, such as what
will we have to do in order to
prevent drops in production under
adverse weather conditions.

Perhaps refrigeration may be
best to protect the animal from
high temperatures. If so, how does
the animal get rid of its heat?
How much heat does it dissipate?
Possibly as another solution, work-
ers may be able to develop a heat
tolerant animal. Dairy or animal
husbandrymen, therefore, are seek-
ing the answer to questions such as
what makes one animal more
heat tolerant than another and
how much more heat tolerant is
one breed than another? Animal
breeders then can look for these
qualities in their breeding stock.

Studies to date consist of a series
of experiments with calves and
mature cattle. In the first five
tests milk cows were exposed to
several constant temperature con-
ditions ranging from five degrees
to 110 degrees. Holsteins showed
no decline in milk production and
Jersey cattle showed only a small
decline in milk production at
temperatures as low as five de-
grees. High temperatures caused
different results. As temperatures
rose above 80 degrees, milk pro-
duction began dropping sharply
among both Jersey and Holstein
cows. At 90 degrees production
dropped 20 per cent.

The sixth and seventh tests
showed that relative humidity
markedly magnified the adverse
effect on milk production at tem-
peratures above 75 degrees. Raising
the humidity from 40 to 90 per
cent at 85 degrees lowered milk
production of some cows as much
as 20 per cent. Wind studies showed
velocities of five mph and higher
to be beneficial. The five mph
winds prevented production losses
of 5 to 10 per cent at 80 degrees.
The test that followed the wind
studies showed the effect of solar
radiation on milk production. It
was found that radiant heat, such
as given off by the sun, could
cause a decline in milk production
as much as 30 per cent at 80
degree temperatures. This produc-
tion loss demonstrates the impor-
tance of cattle shades in hot
climates.

Two other temperature tests
were made wherein the tempera-
ture was varied from day to night
much the same as would be ob-
served outdoors during various
seasons of the year. These tests
showed that the animals could
withstand afternoon temperatures
above 105 degrees when the night-
time temperatures were below 70
degrees.

Our latest tests were with beef
and dairy calves. The results of
these tests have shown that calves
are somewhat more heat tolerant
than lactating cattle. However,
there was quite a great difference
among breeds. Shorthorn calves
at 80 degree temperatures gained
a half pound per day less than
those of 50 degrees, whereas Santa
Gertrudis, Brahman, Jersey, and
Brown Swiss calves did slightly
better at 50 degrees than at 80
degrees but the differences were
small.

There continues to be a need
for increased study of this kind
and the University Climatic Lab-
oratory is helping satisfy this need.

It is necessary to take all appropriate
steps in the immediate future.

Abel was convicted in U.S. Dis-
trict Court in Brooklyn Oct. 25 on
charges including conspiring to
transmit U.S. military information
to the Soviet Union. He could have
been sentenced to death. Instead,
he drew a sentence last Friday
that could keep him in prison un-
til he is 85.

Quality Helps When Feeding Stock Protein

By Fred Meinershausen

MU Extension Dairy Specialist

It's quite probable that many
Missouri dairy men are feeding
too much rather than too little pro-
tein. This fact coupled with the
knowledge of the kind of protein to
purchase, should offer an ave-
nue for saving money.

The kind or quality of protein in
the dairy cow ration is of little
importance when the ration in-
cludes roughages of reasonably
good quality. The paunch of rumi-
nants enable them to manufacture
complete proteins from poor qual-
ity proteins and even from some
nitrogen substances such as urea.

There are primarily three
sources of high protein feeds for
dairy cattle. These are vegetable
oil meals, such as soybean, cotton-
seed and linseed oil meals; nitro-
gen compounds, such as urea; and
animal byproducts, such as tank-
age, meat scrap, fish meals, and
dried milk.

Commercially mixed supple-
ments are composed of different
combinations of these feeds plus
other by-products of food or feed
manufacturing.

Methods of processing vegetable
oil meals influence to some degree
the percentage of protein and en-
ergy they contain. Solvent-processed
meals generally contain less
than expeller and hydraulic
processed meals.

Because of the excellent quality
of protein in soybean oil meal when
used in a dairy cow ration, no
protein supplement of animal origin
is needed. The principle re-
quirement is that the meal has
been heated in processing. All hy-
draulic and expeller-processed
meals have been sufficiently
cooked.

Our latest tests were with beef
and dairy calves. The results of
these tests have shown that calves
are somewhat more heat tolerant
than lactating cattle. However,
there was quite a great difference
among breeds. Shorthorn calves
at 80 degree temperatures gained

Orders Deportation Of Russian Woman

SAN FRANCISCO (AP)—A Rus-
sian woman, described by govern-
ment witnesses as an active Com-
munist party organizer after she
entered the United States, has
been ordered deported.

Mrs. Jean Kramer, 44, a native of
Gomel, Russia, is the wife of
Harry Klotz-Kramer, former cir-
culation manager of the left wing
weekly, People's World. She re-
fused to testify at the hearings out
of which the deportation order
stemmed.

Her attorney, George Anderson,
said the order by the immigration
hearing officer, Monroe Kroll,
would be appealed.

Wine Price Raises

PARIS (AP)—Wine, the French-
man's favorite drink, went up in
price today for the fourth time
since September and for the sev-
enth time since the beginning of
1957.

Ordinary table wines, which aver-
aged about 17 cents a quart early
this year, now cost nearly 25
cents.

Increased production costs and
a bad harvest this year are
blamed.

CALL THE LUMBER NUMBER 359

GOLD LUMBER CO.

The Future Nurses' Club

Every now and then some worthwhile community project gets underway without a great deal of fanfare, but ultimately good works become known and favorably publicized. Juvenile as well as adult enterprises are embraced in this category.

This is in contradiction of the oft-repeated charge that newspapers give better play to crime than to constructive stories. Tendency of the average reader is to digest crime stories with more avidity than those telling about the activities of the 4-H'ers, Boy Scouts, Girl Scouts, school and other organized groups of youngsters with wholesome programs.

To prove that newspapers emphasize the good rather than the bad, all a person needs do is get bitten by a foreign flu bug, a bite sufficient to keep him house-confined for a week and be supplied with dozens of newspapers to read.

A careful check of these papers from all parts of the country reveals these media of communication accentuate the good people do in a community rather than the crimes committed by juveniles or adults.

For instance among many other com-

munity service items in Sunday's Democrat-Capital there was that inspiring story about 28 Sedalia school girls who voluntarily sought to organize a Future Nurses' Club and with assistance of the school nurse and members of the medical auxiliary accomplished this worthwhile enterprise. The project began last May and because of its progress is attracting favorable attention. These girls are destined to contribute something to society by learning the fundamentals of nursing and as they mature receive further instruction through the Red Cross and the Gray Ladies Corps.

The Future Nurses' Club is a vehicle which can perform great service transporting young women toward a professional career respected throughout the world. The field of nursing is uncrowded and offers an opportunity for self-satisfaction and helpfulness to mankind.

Every encouragement should be given Sedalia's young women to expand membership in our Future Nurses' Club, a juvenile activity which is entitled to the kind of favorable publicity every newspaper eagerly wants to give rather than chronicle the misdeeds of misguided youngsters.

The Washington Merry-Go-Round

Dulles' Unique Plan for World Defense

By DREW PEARSON

WASHINGTON—If you can get a glimpse at the advance plans John Foster Dulles has for the NATO meeting in Paris you can readily understand why he wants Adlai Stevenson to stand by his side to give a helping hand. Dulles will need all the support he can get from Stevenson and the Democrats, since he isn't likely to get much from old guard Republicans.

For he has worked out the most revolutionary plan of free-world defense ever contemplated in the history of individual nations. So far it's tentative and subject to change. But what Dulles wants to sell is such a complete coordination of West European defense that France might give up her navy to depend on the British and American navies, while England might give up long-range bombers to depend on American bombers.

Here are the outlines of the tentative work plan for Western free-world defense:

1. A pool of Western scientific resources, not only of scientists, but of laboratories and equipment.

2. A joint training program, whereby the best science students would study at any university, whether British, American or German. Thus an Italian student might go to Germany, a Greek student to the United States. There would be an international pool of scientific training.

3. A military pool, as outlined above, whereby expensive land armies are curtailed in favor of pushbutton warfare.

4. Finally, the United States and England would build up an arsenal of nuclear weapons and guided missiles in Europe.

U.S. Guarantee

This involves the most revolutionary step of all. For what Dulles and Eisenhower will have to sell the smaller nations of Europe is that the Anglo-Saxon nations reserve the power to decide when Europe will go to war or when it won't. It will be their decision as to when this stockpile shall be used. Eisenhower and MacMillan do not want to permit Belgium, Greece, Denmark et al to dip into the atomic stockpile when they may be worried about war; only if England and the United States are ready to go to war.

Selling this will not be easy. In order to sell it, Dulles proposes a solemn pledge that the United States will come to the aid of any free European nation if attacked; that we will go all-out to protect it with every weapon in the arsenal—even if this involves retaliatory bombardment of American cities.

This is the trump card Dulles proposes to play, and this is where Adlai Stevenson comes in. His job will be to keep the Democrats in line.

Fear of Congress

If you study the diplomacy of John Foster Dulles you come to the inescapable conclusion that his chief failures have resulted not from lack of brain, but lack of courage. Today he has two great fears: one is Russia; the other is the Congress of the United States.

And much as the administration is worried about Russia, much as it fears their ICBM and new scientific victories, even more it seems to fear Congress.

In the past, Dulles and Eisenhower could always fall back on the Democrats for support. They knew they could expect little from such pillars of Republicanism as Sens. John Bricker of Ohio, Styles Bridges of New Hampshire, Bill Jenner of Indiana, or, in many cases, Bill Knowland of California. These stalwart Goepers have been against almost every plank in the Eisenhower-Dulles foreign affairs platform, because

Guest Editorial

GALETON (Penn.) LEADER - DISPATCH: Nothing In The Paper! Fifty years ago, Daily Journal editor and publisher W. T. Blair . . . said:

"Did you ever stop to think what the phrase, 'nothing in the paper today' means?"

"It means that in the day just passed that no misfortune has befallen one in our city, that no fire has wiped out a neighbor's worldly goods, that the grim angel of death has crossed no threshold of a friend, that no poor devil, haunted by the past or the misdeed of some other, has crossed the divide by his own hand, that many things that ought not happen have not happened."

"So, the next time you pick up a paper that doesn't announce a tragedy, give a little thanks instead of grumbling because there is no news."

basically Eisenhower-Dulles are following New Deal foreign affairs policies.

So Dulles knew he could fall back on the Democrats.

Today, however, he can't. The Democrats are ired, sore, and rebellious. They are all too aware of the fact that the Republican national committee is continuing to mail out reams of publicity accusing them of getting the nation into two world wars; still branding them as guilty of 20 years of treason. Democrats also see the Eisenhower missile-satellite setback as their political victory. And they know that GOP chairman Meade Alcorn has warned the White House that public-opinion polls show Sputnik means political disaster for the Republicans. Sputnik, Alcorn has reported, is the basic reason for fantastic Democratic majorities in New Jersey and New York.

The Democrats know this, and John Foster Dulles knows that they know it. That's why he is clutching at the coattails of the once-scorched egghead, Adlai Stevenson.

Secretary of State Stevenson???

Close friends of Adlai Stevenson are firmly convinced he will never run again for President, but that he does cherish the ambition to become secretary of state in the next administration which he hopes and believes will be Democratic.

Stevenson's greatest interest has always been foreign affairs. He worked on British-American problems in London during part of the war, was later the first to propose a republic rather than a kingdom for Italy; attended the San Francisco conference in 1945 which hammered out the foundation format of the United Nations.

During the Truman-Dewey campaign of 1948, John Foster Dulles campaigned so vigorously against Truman that White House press spokesman Charlie Ross announced Dulles would not be welcomed back as adviser to the Democratic State Department. One day later Dean Acheson reversed this, and Dulles did come back. He remained for four years, working side-by-side with the Democratic secretary of state.

Stevenson's friends say a similar role for him alongside the present Republican secretary of state would give him invaluable training to be the next secretary of state—if and when.

Fair Deal Library

The motorist traveling along Route U.S. 24 in the State of Missouri will come upon a history-making edifice known as the Truman Library in the former president's home town, Independence.

The Library now belongs to the federal government but the former Chief Executive has a semi-private entrance to the offices which he uses in preparing his speeches, articles and correspondence.

The Library is a treasure house of documents concerning the Truman era. There are enough papers to fill 400 filing cabinets. Mr. Truman's excellent collection of books will soon be filling the library stacks.

The real showcase of the Truman Library will be the museum which will contain 3,500,000 items, including the table on which the United Nations Charter was signed, the trowel used in the laying of the U.N. corner stone building in New York in 1949, an exact reproduction of Mr. Truman's study in the White House, and many valuable presidential gifts from far away places.

Mr. Truman may often be seen in and around the library, sometimes playing the grand piano in the back lobby, or relaxing in the Garden Room with its floor to ceiling picture windows where 900 rose bushes will be blooming next season.

The Midwest is growing in historic spots since two recent presidents have hailed from Missouri and Kansas. Independence has the Fair Deal, what kind of Deal will Abilene get?

Thought For Today

God is greatly to be feared in the assembly of the saints, and to be had in reverence of all them that are about him—Psalms 89:7.

Reverence is the very first element of religion; it cannot but be felt by every one who has right views of the divine greatness and holiness, and of his own character in the sight of God.—Charles Simmons.

The World Today

Adlai Guides His 'Unguided Missile'

By JAMES MARLOW

Associated Press News Analyst
WASHINGTON (AP) — You never would have guessed during the 1956 presidential campaign that it could happen.

But yesterday Adlai Stevenson became a guide for the man he is calling "an unguided missile" in 1956, Secretary of State Dulles.

That was quite a campaign last year.

Dulles himself kept quiet while Stevenson blasted President Eisenhower and secretary on foreign policy and Eisenhower replied in kind.

Actually the Eisenhower-Dulles and Stevenson differences were more of degree than of kind. The campaign oratory magnified them.

The three men have the same general view of foreign policy. They disagree more on details than on general needs.

Time passes. This country needs to find ways to strengthen its ties with its allies in NATO—the North Atlantic Treaty Organization.

And the Eisenhower administration, wanting support from Democrats as well as Republicans, asked Stevenson to help out as a consultant.

Stevenson will work without pay.

Looking Backward...

TWENTY-FIVE YEARS AGO
The Rev. G. C. Davis, Tipton, accepted a call to preach at the Houstonia Baptist Church.

1932
James McNeil, son of Dr. and Mrs. Charles A. McNeil, a student at Washington University, St. Louis was home for a week's stay with his parents.

1932
The Smith-Cotton Tigers ended the 1932 football season taking a loss of 19 to 6 from the William Chrisman High, Independence.

FORTY YEARS AGO
Sylvain Kahn, of the St. Louis Clothing Co., left Sunday for a business visit at Miami, Okla.

1917
Joseph Henry, retired Tipton farmer, member of the Moniteau County Court, died at his home in Tipton at the age of 65.

1917
Miss Martha Letts, principal of Sedalia High School, and Miss Mattie Montgomery, teacher of mathematics, returned from Kansas City where they attended the Missouri Teachers' Convention.

1917
The Pettis County Historical Society at a meeting held at the Sedalia Public Library arranged to keep records of Pettis County soldiers.

Q—What do you think might be wrong when a person turns red and breaks out with what looks like hives from being in the cold air? A sudden change from warm to cold causes this. Also, when I eat or drink anything cold my lips and the inside of my mouth swell.

—Mrs. H. B.

A—in all probability this is an example of the rather unusual physical allergy, or hypersensitivity to cold. A few people do react in the manner described by Mrs. B. and must be cautious about contacts with anything cold. It might be possible to bring some measure of relief by gradually increasing exposure to cold, thus lessening the sensitivity.

Q—About a year ago my son had injections of cortisone given for iritis. Since that time he has had trouble with his hair falling out and is wondering if the cortisone could be the cause. Is this possible?—T. K.

A—it is possible. Cortisone is an active preparation, of course, and can produce several symptoms which go under the collective name of Cushing's syndrome. It is for this reason, particularly, that when cortisone is given for the treatment of any condition the patient must be watched with the greatest of care.

Q—Will you please say something about the effects of smoking and alcohol on a polio patient.

A—Assuming that the X-ray treatments will be given by someone thoroughly qualified, the amount of risk should be considered slight indeed. This form of treatment sometimes works where other measures have failed.

Q—Will you please say something about the effects of smoking and alcohol on a polio patient.

A—During the acute stage of illness almost certainly alcohol and smoking would be undesirable. After recovery, so far as I know, neither smoking nor alcohol have any specific action on the effects of polio. They would have just about the same amount of possible harmful effects as they would on a person who had not had polio.

—Anxious.

Annual Supper In Moniteau County Held

The third annual Moniteau County Agricultural Extension Family Night turkey supper was held Thursday, Nov. 7, at the California High School with 250 persons in attendance.

Home Economic Club women preparing turkeys were Mrs. Charley Stock, Mrs. Lawrence Cook, Mrs. Robert Basinger, Mrs. Lewis Hume, Mrs. Walter Wolf, Mrs. George Coleman and Mrs. Clark Howard. These seven women prepared 138 pounds of turkey for the family night supper.

The program assembled at 8:15 in the High School Auditorium with Raymond Peck playing the piano. Mrs. A. V. Wittenberger, chairman of the Agriculture Extension Council called the meeting to order and recognized the program planning committee consisting of Mrs. Roy Gabert, Mrs. E. R. Bond, Mrs. Leonard Ratcliff, Mrs. Ed Glasser, Mrs. Marilyn Hays and Mrs. G. L. Peters for the well planned program.

Miss Rita Harder, Red Brush 4-H member; Harry Miller, Early Birds 4-H member; Gloria Hays, Tipton 4-H and Mrs. Harold Gracy and two daughters, Connie and Bonnie of the Grant 4-H Club provided special music for the program.

Mrs. Viola M. Smith and Mrs. E. R. Bond recognized all 4-H members who filled out Standard Report Forms for 1957. The recognition went to 65 4-H members who had submitted report forms to the extension office.

As a result of these Standard Report Forms, Moniteau County 4-H'ers received 75 special county awards in their 4-H project and activity work. They were: leadership, Donald Yoest and Laverne Allee; recreation, Mary Ann Hoellering; Donald Yoest and Ruth Allee; achievement, Donald Yoest and Laverne Allee; health, Mary Ann Hoellering; safety, Ruth Allee, Gloria Hays, Mary Elminger, and Marilyn Bond; boys' agricultural, Donald Yoest and Jim Knipp; dairy, Charlotte Stephens, Wayne Bueker and Kenny Snyder; electricity, Ralph Knipp, John Knipp, Donald Schmidt and Kenneth Stoecklein; forestry, Donald Yoest; gardening, Ralph Knipp; meat animal, Ruth Allee and Robert Hoellering; clothing, Marilyn Bond, Barbara Basinger, Donna Ratcliff and Ruth Sue Koechner.

Home improvement, Rita Raye Harder and Carol Rae Calhoun; beautification of home grounds, Mary Faith Knipp, Betty Jo Veulemans, Linda Schmidt, and Donald Schmidt; food preparation, Janet Peck, Carole Kilgore, Jane Wisdom, and Peggy White; frozen foods, Laverne Allee; girls' home economics, Laverne Allee, Beverly Sue Stephens, Donna Ratcliff and Ruth Elminger; canning, Donna Lee Koechner, Ruth Sue Koechner, Carole Basinger and Laverne Allee; dress revue awards, Mary Ann Hoellering, Mary Carolyn Allee, Phyllis Stoecklein, Donna Ratcliff, Donna Lee Koechner, Kathryn Gier, Barbara Basinger, Linda Kettner, Beverly Stephens, Janie Wisdom, Constance Carol Gracy, Gloria Hays, Mary Lou Elminger, Connie Stokes, Sue Ann Reed, Alma Meng, Carolyn Allee, Carol Martine, Suzanne Shepherd, Marilyn Bond, Mary Knipp, Peggy Koechner, Ruth Sue Koechner and Joyce Schneider.

The Dairy Award, presented by the Pure Milk Cooperative of Kansas City, will be awarded to Marvin Opie of the Grant 4-H Club. The Danforth Awards were presented to David Gier, Grant 4-H Club and Donna Lee Koechner, Flying Eagles 4-H Club.

The 4-H Key Award, which is a new award made possible by City Service Oil Company was presented to Laverne Allee, Show-Me 4-H Club and Robert Hoellering, Wonder Workers 4-H Club by O. L. Lampton.

Roy Gabert presented the 4-H Alumni Awards to Mrs. Donald Bueker Ratcliff and Walter Bueker. These awards are presented to former 4-H club members who have continued to be leaders in their community.

Missouri Bankers Awards were made to Mr. and Mrs. Jewell George, Jamestown; Mrs. Agnes Yoest and Donald, Tipton; Mr. and Mrs. Norman Koerkenmeier, Tipton; Mr. and Mrs. Roger Geier, Jamestown, and Mr. and Mrs. Robert Basinger of California.

One hundred and twenty-seven 4-H'ers received pins and certificates for the completion of their project work.

Actress Has One Week To Find a Dream Man

HOLLYWOOD (AP)—April Olrich has less than one month to meet her American dream man, or it's back to Blighty and spinsterhood, says the 24-year-old British actress.

The green-eyed, honey blonde said she doesn't like Englishmen. "They have no appreciation of womanhood," she said. "But American men! They are appreciative—they pay more attention to women."

Miss Olrich is scheduled to return to England Dec. 17 after a 12-week tour.

Smith, president of the Student Council, pointed out the sights during a visit of the two Japanese to the school. They are touring U.S. colleges under the auspices of the National Student Association.

Little Rock Rebels' Held In \$400 Bail

PHILADELPHIA (AP)—The self-styled "Little Rock Rebels," a group of six young white men accused of beating two Negro brothers, were being held in \$400 bail each today for the grand jury.

In ordering the six held, Magistrate Nathan A. Beifel told them, "you have little rocks in your heads."

Police testified the six, ranging in age from 20 to 27, broke a front window of the brothers' home and then fought with them in a wild brawl when the two came out on the street.

"We have enough trouble on an international scale," Magistrate Beifel said, "without going out of the way to cause racial trouble."

We are lucky to be Americans. We should work tirelessly to maintain the great country we have instead of being at each other's throats."

Police said the six chased home one of the brothers, William Bines, 18, after making remarks about him as he passed a street corner Monday night.

After the gang broke a window, Bines and his brother, Haskin, 17, swung a long coal poker out the window to prevent the attackers from climbing through. Fighting started when the brothers went out on the street to retrieve the poker.

The youths fled when a patrolman pulled up and fired twice into the air, but one, Joseph Stewart, 20, was collared. The others were picked up at a hospital where they had gone for treatment of cuts and bruises.

They were Fred Roth, 23; Robert McKenna, 22; Michael Whitmore, 20; and Robert Howard, 27, all of Philadelphia, and Peter Ottaviano, 20, of Pennsauken, N. J. All six were charged with assault and battery and conspiracy.

Borrowers and Lenders

BEAVER, Okla. (AP)—The Beaver Fire Department has sent out an appeal for all those who borrowed equipment to return it. It was pointed out that there might be a fire sometime and there would be nothing with which to fight it.

Only 5 per cent of the kingdom of Jordan is inhabited.

Flood Waters Recede After Violent Storm

LOUISVILLE, Ky. (AP)—Flood waters receded in western Kentucky in the wake of violent storms which swept across the state into the eastern section.

Heavy rains bringing flash floods, tornadoes and crackling electrical storms claimed four lives yesterday. Two died when lightning struck them and two others drowned when their car plunged off a road into a rain-filled ditch.

There was no apparent general flood threat for eastern Kentucky, hard-hit by devastating floods last January. Some streams were reported on the rise, although most were expected to stay within their banks.

Hopkinsville—hardest hit by high water—reported the water was dropping and some roads into the city of 12,526 were passable.

The western Kentucky community mobilized National Guard troops on orders from Gov. A. B. Chandler when the Little River went out of its banks. Some 150 families were evacuated.

Police said the six chased home one of the brothers, William Bines, 18, after making remarks about him as he passed a street corner Monday night.

After the gang broke a window,

Bines and his brother, Haskin, 17, swung a long coal poker out the window to prevent the attackers from climbing through. Fighting started when the brothers went out on the street to retrieve the poker.

The youths fled when a patrolman pulled up and fired twice into the air, but one, Joseph Stewart, 20, was collared. The others were picked up at a hospital where they had gone for treatment of cuts and bruises.

They were Fred Roth, 23; Robert McKenna, 22; Michael Whitmore, 20; and Robert Howard, 27, all of Philadelphia, and Peter Ottaviano, 20, of Pennsauken, N. J. All six were charged with assault and battery and conspiracy.

**Pig Learns to Walk,
Feed on Front Legs**

HOUSTON, Tex. (AP)—A little pig named Freddie is not going to market, and it's all because he walks on his front legs.

The predicament failed to bother Freddie. In just a few days he learned the art of hiking his hind quarters toward the sky and walking on his front legs. He even feeds in this position.

Dr. Boyd said that while Freddie's six brothers and sisters are market bound, Freddie will stay home.

Only 5 per cent of the kingdom of Jordan is inhabited.

King's Gifts Are Placed In Custody

WASHINGTON (AP)—The State Department has collected and taken custody of all known gifts to its personnel from King Saud of Saudi Arabia.

There is one exception, however. That is the \$3,000 automobile given by Saud to the family of Victory R. Purse, former deputy chief of protocol at the State Department. The car is registered in his wife's name, and the Department made no effort to reclaim it.

Disclosure of the gift to Purse's wife several weeks ago touched off a furor in the Department over the propriety of accepting gifts.

After a hearing, the Department decided Purse could keep the car and his job. He was found to be within the law but to have exercised "bad judgment."

The Department acted last week to clarify the regulations governing acceptance of gifts by State Department personnel at home and American foreign service officers abroad. A circular was sent around to all of them.

In effect, the circular ruled out any gifts except those of insignificant value, such as autographed photographs.

The order to turn in gifts from Saudi went out nearly two weeks ago. It was done quietly. Wrist watches, Arab robes and ceremonial daggers—standard among gifts dispensed by Saud during his Washington visit last February—were turned in. They were taken over by the protocol division for storing until the Department decides whether to give them back.

This was a reversal of an earlier decision that it was all right to keep them. The Saudi gifts had been turned in almost immediately. About the middle of the year they were made available to the recipients.

The circular clarifying gift regulations noted that in some instances it might be impolite to refuse a gift, however expensive.

It said that, to prevent snubbing a foreign dignitary, costly gifts might be accepted. But they would have to be turned in to protocol pending a Department decision on whether they could be kept.

Many items have been in storage for years, awaiting just such a decision.

Purse has been transferred to another job, although the Department insists this had nothing to do with the gift controversy. He now is chief of administration in the Department's office of International Organization Affairs.

About 2,000 persons crowded into the circular hall of the Syrian Parliament building. There was applause when the joint session approved a resolution calling on both governments "to go into immediate joint negotiations for the complete realization of this federal union."

The Congress meets in Chicago where they review the furniture. Here the new ideas in furniture, the new thoughts, the new trends are presented to them and they give their reactions to them. This determines the future course of design. Members of the Congress are representatives of the furniture dealers themselves.

This is the third time McLaughlin has been elected to the Congress.

McLaughlin is Named
To Furniture Congress

Phillip McLaughlin, of McLaughlin Bros. Furniture Store has been elected a member of the Congress of the American Furniture Mart by the furniture merchants of Missouri.

The Congress meets in Chicago where they review the furniture. Here the new ideas in furniture, the new thoughts, the new trends are presented to them and they give their reactions to them. This determines the future course of design. Members of the Congress are representatives of the furniture dealers themselves.

Syrian Premier Sabri Assali told the parliamentary session that the merging of the armed forces of the two Arab countries was practically realized when Egyptian troops recently landed in Syria.

Syrian Parliament Speaker Akram Hourani asserted that the United States has launched "a slanderous campaign aimed at picturing Syria as a tool of international communism and a base for the Soviet Union."

Sedalia Choral Club Concert at Boonville

The Sedalia Choral group of 30 male voices will present a musical program tonight at the Boonville high school auditorium.

The concert is sponsored by the Boonville Kiwanis Club, and the event marks the second time in the last few years that the Sedalians have presented the organization.

The program will start at 8 p.m. and admission is free. A free will offering will be taken at the door.

Syria, Egypt Move Closer To Alliance

DAMASCUS (AP)—Syria and Egypt moved closer to a federal union today. Joint committees are expected to begin drafting a constitution soon.

Forty visiting members of Egypt's National Assembly joined Syrian deputies yesterday in voting unanimously for speedy completion of the union, agreed on in principle 16 months ago.

About 2,000 persons crowded into the circular hall of the Syrian Parliament building. There was applause when the joint session approved a resolution calling on both governments "to go into immediate joint negotiations for the complete realization of this federal union."

The federation looks toward joint foreign, defense, economic, financial and cultural policies. The two countries would maintain independence in internal affairs.

Syrian Premier Sabri Assali told the parliamentary session that the merging of the armed forces of the two Arab countries was practically realized when Egyptian troops recently landed in Syria.

Syrian Parliament Speaker Akram Hourani asserted that the United States has launched "a slanderous campaign aimed at picturing Syria as a tool of international communism and a base for the Soviet Union."

5-Year-Old Starts School With Others Without Hands, Feet

ST. LOUIS (AP)—Why don't you have any fingers?"

"I wasn't born with them."

That's what five-year-old Jerry French told an inquisitive classmate during his first day at kindergarten yesterday.

Jerry was born without hands or feet and his life has been a daily struggle to do things he sees other youngsters do.

The spunky boy, equipped with mechanical hands and feet, has an amazing will to be just like the other kids. He can scribble with a pencil, brush his teeth, eat without aid and ride a bike. He declined to go to a school for handicapped children.

The boy who asked Jerry why he didn't have any fingers furnished the only tense moment yesterday. The teacher, Miss Frances Pearce, said Jerry answered easily and without embarrassment. The other children seemed satisfied.

"We feel that Jerry will be able to do everything the other children do, except probably art work," Miss Pearce said.

YOUR EYES AND VISUAL FUNCTIONS

There are two definite and distinct fields of eye and vision care. One of these, and not the least important, relates to the physical, physiological and psychical phases of vision. This neuro-muscular, psychological part of vision care and development is defined by all of our state laws as Optometry and the men who practice as specialists in this field are optometrists.

Optometry as a profession dates back to 1900 when the first state law governing this part of vision care was passed by the Minnesota legislature. In 1921 when Missouri and Texas finally passed Optometry laws all of the state legislatures had recognized the necessity of protecting the vision of their citizens.

The American Optometric Association has provided a number of pamphlets and brochures setting forth the many facts of vision care, development and protection. Any members of the Missouri Optometric Association will gladly give or secure for you pamphlets relating to the vice president's traditional post of foreign minister. It depends on Macapagal's attitude and what arrangements can be made between Garcia's Nacionalista party and the Liberals, the President said.

S-C Tigers End '57 Grid Play Tonight

Bengals, Raytown Clash On Jaynes Stadium In Final Tilt of the Season

L. J. Robinson Wins In Pick-the-Winners Football Contest

By Stan Jones
Tonight the Smith-Cotton Tigers will play their last game of the 1957 football season. This will be the game with the Raytown Bluejays which was scheduled for October 28, but was canceled because of the flu. The battle will be played on the Jenne Jaynes gridiron, Sedalia.

Fourteen Tigers will play their final regular season high school football instead of twelve as previously announced. These same boys finished their conference season last week, Bill McDowell, Roger Gates, Tommie Herrick, Marshall Bryan, Bert Thomas, Ronnie Dirck, Ed Schwartz, Ned Khede, Charles Dekle, Gary Hickman, Art Bethke, Perry Fairfax, Dick Sklar, and Dick Woodsmall.

The Raytown Bluejays have a good team, and have always made it rough for the Tigers, and this year is to be no exception. They were the only team in the Kansas City area that was expected to give the powerful Northtown team a good game. When this was played last week the Bluejays were defeated, but being beaten by North Kansas City does not mean weakness. The Tigers by contrast ended their conference play last week by defeating Kemper by a score of 50-6.

B. C. Poynter is expected to return to the starting line-up for the final game, and his appearance gives the Tigers a 19 point weight advantage in the line, while the backfield are about evenly balanced. The Bluejays boast of one sophomore on the starting line up, Dan Titus, with whom we are familiar from his outstanding track performance last year. He is extremely fast, and is expected to give us the most trouble, as our Bengals are not noted for their speed. The game will be a tight one, and should be very interesting.

The line up are as follows:

SMITH-COTTON
Charles Dekle 140 LE Gary Murkin 158
Peter Lamy 180 LT Ted Evans 165
Bill McDowell 193 LG Richard Nixon 147
Dick Sklar 165 C Frank Knauf 168
Art Bethke 181 RG Bruce Griffen 153
B. C. Poynter 220 RT Frank Loeffler 181

Michigan, Ohio Game Is Battle For Prestige

ANN ARBOR, Mich. (AP)—Michigan regards its traditional clash here Saturday with Big Ten champion Ohio State as a "battle for prestige."

Only a victory over the Rose Bowl-bound Buckeyes can recapture some glitter from an otherwise drab Michigan season. And the Buckeyes can't afford to lose to Michigan lest their prestige rating drops.

The Wolverines had been hoping to knock Ohio out of the title and the bowl junct. That chance was lost when the Bucks beat Iowa last week. Ohio had blasted Michigan's Rose Bowl hopes with a 17-0 victory in the hotly contested and still-debated finale in 1955.

"We'll have plenty of incentive anyway," Coach Bernie Oosterbaan said. "We always do when we play Ohio."

Michigan features a ground attack with little punch except for the break-away running of left halfback Jim Pace. The threat of smashes through the middle was eliminated by the season-long injury to fullback John Herrnstein.

But Pace probably is as fine a running back as there is in the Big Ten. He shares the conference scoring leadership at 48 points with Buckeye Don Clark.

"He's the best running back I've seen in two seasons," said Red Grange, the former Illinois galloping ghost.

Passing generally supplies much of Michigan's impetus. Pace again is one of Michigan's top receivers.

Slated for Return Bout December 23

NEW YORK (AP)—Danny Russo and Eddie Lynch, a couple of young inter-borough rivals, may have their return fight at St. Nicholas Arena Dec. 23—health permitting.

Matchmaker Teddy Brenner booked the two welterweights today after Russo, of Brooklyn, rallied to outpoint substitute Pete Schmidt of New York, in a televised 10-rounder last night.

Smithton, Stover Split Cage Games

Smithton divided honors with Stover Saturday night when the Varsity took their game 50-45 while the "B" team scored a loss to Stover 23-45. Stover was consistent in their scoring of 45 points in each game.

M. Monsees led the "B" Smithton team in scoring with nine white Ehlers of Stover sparked his team with 10 points.

In the Varsity game Smithton went into an early lead and was coasting until the final half when Stover began hitting the loop, outscoring Smithton in both the third and fourth quarters, but short of victory.

The first quarter it was nip-and-tuck with Smithton topping their opponents 16-14, the second quarter was a walk-away with Smithton having their big period of 22 to 10 to take a half time lead of 32-24. But the third quarter the point-lead began to dwindle as Stover picked up 13 to 8, then in the fourth they scored 8 to 4, but still too short to win.

J. Monsees handled the ball in the scoring department for Smithton making eight field goals and eight free throws for 24 points followed by Kahrs with 4 and 6 for 14 points. Phelps was high man for Stover with five goals, ten points, followed by Beechman with 3-3 for 9, with Miles getting four goals and Johnson a 2-4, both totalling eight points each.

The box score:

SMITHTON 16 22 8 45

STOVER 14 10 13 8 45

SMITHTON FG FT F TP

Kahrs 4 6 4 14

Monsees 8 8 5 24

Cole Camp High Sweeps Warsaw Play

The Cole Camp high school won a double title at the Warsaw Invitational tournament, the boys basketball team defeating Green Ridge by a score of 53 to 49 while the girls defeated Houstonia 28 to 19 in volleyball.

Johnston said at his home in Philadelphia "I definitely did not injure Cousy on purpose and I believe he knows that."

Cousy, who will be lost to the unbeaten National Basketball Assn. champions for at least two weeks, said he was moving the ball down court and Johnston "put his knee out to try and stop me instead of playing defense."

Johnston gave this version of the incident:

"Cousy had the ball and the Celtics were coming up court. Lots of times the ball carrier will stop short and make the guard bump into him. Cousy stopped and I stopped short in front of him. He faked one way and went the other and we collided. I thought he charged me but they called the foul on me."

The line up are as follows:

**Hour With 2 Children Sets
Man On Way As Millionaire**

NEW YORK (AP) — Sometimes it pays to spend a little time with the kids.

An hour devoted to helping two of his four children has set Martin Umanoff, 32-year-old industrial designer, on the road to becoming a millionaire.

One evening last December his two daughters, Laurie, 8, and Sandee, 7, came to him and said: "Daddy, we're trying to learn to tell time, but it's too hard. Can you help us?"

The problem intrigued Umanoff, a former Air Force sergeant. Puzzles had interested him since childhood, much of which he had spent in a wheelchair as the result of a polio attack.

With crayons, cardboard and thumb tacks he invented a new-type clock within half an hour. The left side was clearly marked "before," the right side "after." The hour numbers and hour hand

were red. The minute hand and numbers in blue.

Using his simplified clock he taught his children in 15 minutes to tell time.

"We have since found that any child, even as young as 4, can read numbers up to 30 can learn to tell time in a few minutes," Umanoff said.

His children took the working model of his clock to school the next day. The teachers immediately asked for more. Within a few weeks Umanoff made and distributed 1,000 free.

Then a school principal told him: "Your clocks are a wonderful idea, but children need to learn more than simply how to tell time. They need something to teach them the importance of time."

Umanoff's answer was to create a cartoon character called Terry Tell Time, a half-imp, half-child in a Tyrolean hat.

The little character has proved — as did Mickey Mouse and Davy Crockett — an immediate commercial bonanza.

Umanoff has leased rights to manufacturers for \$20,000 worth of merchandise using his Terry Tell Time symbol. There will be watches, school pads ("it's time to do your home work"); toothbrushes ("it's time to brush your teeth"); school bags ("it's time to go to school"), and some 55 other toys and products.

There will also be a television program for kids which Umanoff is arranging to distribute to 150 stations.

Although Umanoff has invented a dozen other items, the little Terry Tell Time character has overshadowed all his earlier creative efforts.

"Who would expect that an hour spent on a child's problem would change your whole life and grow into a multimillion-dollar business?" he asked.

"The kids themselves haven't

asked yet for a share of the profits. They do ask me if I can't spend more time with them — I'm so busy I only have one day at home."

"But it's their own fault. If they hadn't asked me to teach them how to tell time, I'd have more time now to play with them."

**Adlai Stevenson
To Keep Party
Leaders Informed**

WASHINGTON (AP) — Adlai E. Stevenson apparently is going to keep Democratic congressional leaders fully informed of the progress of his NATO program discussions with Secretary of State Dulles.

Stevenson, the twice-defeated Democratic presidential nominee, was said to recognize that his party's members of Congress must assume the major responsibility for any bipartisan support for proposals to be laid before the North Atlantic Council next month.

But Stevenson himself emphasized that "I am here not as a Democrat only, but as one who has had some experience in the foreign policy field."

That was his reply to a reporter who asked whether he expected congressional Democrats to accept him as their spokesman.

Among other things, Stevenson worked on the founding of the United Nations in 1945 and served with the American delegation. In 1953 and again this year, he traveled extensively abroad.

He conferred yesterday with Dulles and received a number of tentative State Department working papers. After a day of studying them, he commented that they had incorporated some of the suggestions he made to Dulles about a week ago in a written memorandum.

He called his first day's work a good beginning. He said he will leave tonight for New York and Chicago, but will return next Monday to "work right through" to a Dec. 3 White House meeting of Republican and Democratic congressional leaders.

He asked yet for a share of the profits. They do ask me if I can't spend more time with them — I'm so busy I only have one day at home."

"But it's their own fault. If they hadn't asked me to teach them how to tell time, I'd have more time now to play with them."

PTA News

Musical Program Presented By Horace Mann Students

The November meeting of Horace Mann PTA was held Thursday, Nov. 14 with Mrs. William Ramsey presiding.

Mrs. Donald Trueman gave the devotional. The annual PTA membership drive award plaques went to Miss Sarah Phillips and Mrs. Bernice Ringen's rooms. To date the PTA has 672 members.

The musical program was directed by Mrs. Frances Gilmore and featured the orchestra and the fifth graders: "My Bonnie Lies Over the Ocean", orchestra; "Oward Christian Soldiers", orchestra; "Carmencita", piano solo by Sylvia Thompson; "Tammy", vocal solo, Elizabeth Wheeler; four songs by the fifth grade.

J. O. Miller, guidance counselor at Smith-Cotton High School, spoke on "The Family".

P. A. Sillers, director of elementary education spoke to the Washington PTA Friday afternoon. He discussed his position and told the parents things they could do to help prepare their children for college and their future.

Mrs. William Garrett presided over the meeting. Mrs. Kenneth Davidson gave an inspiring devo-

Southeast State Fights Flood Again

KENNETT, Mo. (AP) — Southeast Missouri is battling a major flood the second time this year.

Periodic rains the past six days have covered 60 per cent of seven counties with from a few inches to five feet of water. More rain is forecast.

Some 150 persons trapped by high water on Dunklin County farms were evacuated yesterday to the armory in Kennett, the county seat. Schools were blocked and long stretches of shallow water covered major highways. Thousands of acres of cotton and soybeans, the principal money crops in the area, are under water.

Heavy rains last spring did the same thing.

No deaths or injuries have been reported. Gov. James T. Blair authorized National Guard units to aid in the rescue work.

Traffic continued to move on the major highways, including U. S. 60, 61 and 62.

The seven-county area is low and flat and much of it was swamp land until it was reclaimed by the construction of an elaborate dike and drainage ditch system in the early 1900's.

Sandbag patrols manned the levees yesterday and over the weekend but lost their fight to contain the rising water. The drainage ditches could not carry off the excessive rainfall fast enough.

Harshest hit are the three counties—Dunklin, Pemiscot and New Madrid—which make up southeast Missouri's Bootheel, an appendage 30 miles deep which cuts a notch into the northeast corner of Arkansas. The other counties affected are Butler, Stoddard, Mississippi and Scott.

Joe Scott, Dunklin County farm agent, said he doubts the area will produce more than 150,000 bales of cotton this year. It accounted for virtually all of Missouri's 395,000 bales in 1956.

Keep Hyphens

CAPELLE-FERNE, England (AP) — This Kent cliff-top village has told Kent County Council it does not want its name changed to Capelleferne — without hyphens. The County Council is trying to get a regular spelling for many villages in the county.

GOING "HOME"—A new lightweight acoustic-homing torpedo, developed by the U.S. Navy, leaves the firing tube aboard the USS Tweedy and begins its unerring journey to its target. The development of the new surface-launched torpedo is part of Navy's program of continually improving its anti-submarine weapons. The new weapon is already in use by the fleet. In releasing this photo, the Navy did not locate the scene of the action.

Navy Court Convicts Marine, Acquits Another

YOKOSUKA, Japan (AP) — One Texas Marine was convicted and one acquitted by a U.S. Navy court-martial today on charges of roughing up American sailors in a brig at Sasebo naval base.

Cpl. James T. Ray, 21, Texas City, was sentenced to 15 days at hard labor without confinement, forfeiture of \$30 pay, and reduction in rank to private first class for punching a prisoner in the stomach. He was found innocent of a second charged filed by another sailor.

A committee was appointed to purchase the Christmas treat for the children. Mrs. Bob Owens, chairman, Mrs. Marvin Goodrich and Mrs. Burrus Carter.

Broadway School has charge of the first PTA radio program on Nov. 21. Mrs. Howard Givinn will speak on the history and beginnings of the PTA organization.

Broadway will have decorated car in the parade Nov. 25 in celebration of "Know Your America Week."

Everyone was urged to attend Council on Dec. 4 at the First Baptist Church at 1:30 p.m.

Parents and Family Life meeting will be at the school on Dec. 17.

The next PTA meeting will be the annual Christmas program on Dec. 18 at 7:30 p.m.

Mrs. Espelin introduced, Mrs. Bryan Howe, who gave a very interesting and informative talk on the history of the National Education Association. The centennial celebration of this organization was held in Philadelphia last summer with 703,829 members, quite a step from the beginning in 1857, of 41 men and two women.

The theme of the Centennial was, "An educated people moves freedom forward." This same theme was used for American Education Week this year. American Education Week was first observed in 1921, and it is estimated that during the week this year 20,000,000 parents will visit their schools.

Mrs. Howe issued an invitation for all parents of Broadway to visit several times during the year. Mrs. Espelin then gave a report on the State Convention she attended in St. Louis. Pictures were

Santa Fe Has An Agreement With Unions

CHICAGO (AP) — The Santa Fe Railroad today entered into a union shop agreement with 15 non-operating unions, ending a seven-year dispute and heading off a strike scheduled for Friday morning.

The settlement, affecting some 42,000 Santa Fe employees, was reached about 2 a.m. It climaxed 16 hours of nearly continuous meetings among union representatives, company officials and federal mediators.

The agreement, announced by Francis A. O'Neill, chairman of the National (railway) Mediation Board, was termed "a complete victory" by union spokesmen. O'Neill was assisted in the final negotiations by mediation board member Robert Boys.

George E. Leighty, president of the Railroad Telegraphers Union and chairman of the 15 unions' joint negotiating committee, said the agreement is similar to pacts signed with the nation's Eastern railroads five years ago.

The unions representing the railway's off-train employees, announced a Nov. 22 strike date last Friday after meetings in Washington broke up without making any apparent headway.

The only point at issue was the union shop, a point which makes union membership a condition of employment.

The agreement provides that all all nonunion and new employees, who otherwise would be required to become members of the nonoperating unions, will not be required to become full members, but will be required to pay dues, fees and assessments.

Following the program, everyone followed the schedules of their children to the various classrooms and observed their handwork which was on display.

Fred G. Gurley, chief executive officer and chairman of the board

of Santa Fe, said the agreement is therefore a modified union shop, since under many union shop clauses employees are required to become full members.

He added a statement: "Now that this controversy is behind us and the public has been spared a costly transportation strike, our entire organization will be able to devote their full energies to providing necessary services for our shippers and passengers."

The Santa Fe system, which operates some 13,147 miles of track-age through the Southwest and West, thus became the last of the nation's major railroads to sign a union shop agreement.

You'll discover... just as the whole world discovered... that Ford's dramatic new features for 58 make it the most exciting value ever offered the American car buyer. It's the fine car at half the fine-car price!

You'll ride in a new world of fashion with Ford's deep-sculptured styling. From new Honeycombed grille and Power-Flow hood to the new Slipstream roof and Sculptured rear deck, Ford's 58 styling is a standout!

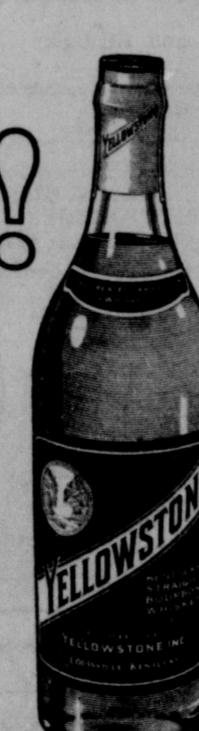

You'll be ahead with Ford's all-new Interceptor V-8 with Precision Fuel Induction. Gives up to 300 hp. Smoother power... more power... from less gas! The secret is Precision Fuel Induction, a great new fuel feeding system!

You'll get gas savings up to 15% with new Cruise-O-Matic Drive teamed with the new Interceptor V-8. New DI position lets you move smoothly, automatically from solid-feeling take-offs right up to highway cruising speeds.

You'll ride on a cloud instead of a spring with optional Ford-Aire Suspension. This is the way you've always dreamed of driving—floating on air! Four air pillows soak up bumps. Car relieves when someone gets in or baggage is loaded. All this is yours at low Ford prices!

You'll steer with a feather touch with new Magic-Circle steering. Nothing rolls like a ball and that's the secret of Ford's steering ease. Free-moving steel balls bring you the closest thing yet to power steering!

Your night driving is safer with Ford's Safety-Twin headlights and taillights. It's the biggest advance since sealed-beam headlights! And only Ford can offer you Lifeguard Design and other "Inner Ford" safety features!

THAT'S RIGHT—
no bite!

... because Yellowstone's exclusive mellow-mash

process uses only the lightest, most desirable whiskey vapors in the still—leaves the "heavy" parts behind.

It's a costlier process—takes more grain, more time.

But you get full flavor and lightness—a bourbon remarkably smooth and mellow!
